Professional Summary

Innovative Senior Web Developer with 7+ years of experience architecting and delivering robust web applications using MERN stack, Next.js, and PHP. Proven track record of leading cross-functional teams, managing end-to-end development cycles, and delivering scalable, high-performance solutions that drive business growth. Passionate about optimizing user experience and leveraging cutting-edge technologies.

Work Experience

Senior Web Developer
Business Network International (BNI), Bengaluru | May 2024 – Present

- Leading front-end development of web applications using the MERN stack and Next.js, enhancing application performance through code optimization.
- Mentoring and guiding the team, streamlining workflows, and accelerating project delivery.
- Collaborating with UX/UI designers to define requirements and ensure new designs align seamlessly with legacy system workflows.

Web Developer
Business Network International (BNI), Bengaluru | Feb 2022 – Apr 2024

- Developed and maintained scalable web applications by implementing efficient state management and caching strategies.
- Contributed to the migration from legacy systems to modern frameworks for applications serving over 340,000 global users, enhancing developer productivity and system stability.
- Managing a PHP-based CMS supporting over 11,300 websites with multilingual functionality.

Lead Frontend Developer
Greenhouse Brandworks, Bengaluru | Aug 2020 – Sep 2021

- Spearheaded frontend architecture for multiple client projects, ensuring responsive design and cross-browser compatibility.
- Collaborated with the product team to understand client requirements and evaluate their feasibility through software solutions and coding.
- Worked closely with UX/UI designers to deliver intuitive and user-friendly interfaces.

System Engineer
Easta Services, Bengaluru | Jul 2017 – Aug 2019

Software Developer
Glisten Project Solutions Pvt Ltd, Bengaluru | Jan 2017 – Jul 2017
